

## REMARKS

Claims 1-15 were pending in the above-identified patent application when filed. Pursuant to 35 U.S.C. 1.21, the Office Action dated April 29, 2004 required restriction of the patent application to the invention of one of: Group I, including claims 1-5; Group II, including claims 6-10; and Group III, including claims 11-15.

In response, Applicant elects without traverse to have the invention of Group I, claims 1-5 examined. Please cancel claims 6-15, which are drawn to the inventions of Groups II and III. Applicant reserves the right to seek examination of the inventions of Groups II and III in divisional patent applications.

The above amendment to the specification amends the title of the present patent application to better reflect the elected claims. The claims are being amended to cancel non-elected claims 6-15, to improve the clarity of the elected claims 1, 2, 4, and 5, and to add additional claims 16-22. Applicant requests examination and allowance of the Application including claims 1-5 and 16-22.
